Notification Preferences

GET /notification-preferences

PATCH /notification-preferences

Shared Responsibilities

Everyone should also:

- Write Swagger/Postman documentation for their endpoints.
- Write controller, service, repository, and entity code for their assigned modules.
- Write validations where necessary.
- Test their APIs with Postman.
- Create seed/sample data for testing.
- Push only to their feature branch and create Pull Requests into develop.

Git Branches

main

|

develop

|— feature/auth-wallet-payments-admin (Gift)

|— feature/marketplace-orders (Favour)

└— feature/coldroom-bookings-reviews (Emeka)

└— feature/logistics-notifications (Deborah)
